Mihko Kiskisiwin-Blood Memory

Authors Shantell Powel, Bill Coates, Cynthia Missabie, and Hope Engel read and share from the new anthology *Mihko Kiskisiwin*. Thomas King said, “The truth about stories is... stories are all that we are.” Colonization has tried to erase and eradicate Indigenous narratives for centuries. This anthology by the Indigenous Poets Society (Saskatchewan–Ontario) showcases spoken and written poetry, fiction, and creative non-fiction from emerging and established artists, writers, and performers. Testimony is at the heart of this collection. With vulnerability and urgency, these writers illumine

NFB Movie Screening: Wilfred Buck (2024)

View an award-winning cinematic feature film presented by the NFB at the Old Post Office. Director: Lisa Jackson 2024 — 96 min English, Cree. He's from the "fresh-out-of-the-bush, partly civilized, colonized, displaced people," and he's here to take us to the stars. Lisa Jackson's portrait of Cree Elder Wilfred Buck moves between earth and sky, past and present, bringing to life ancient teachings of Indigenous astronomy and cosmology to tell a story that spans generations. Adapted from Buck's rollicking memoir, *I Have Lived Four Lives*, the film weaves together stories from his life, including his harrowing young years of displacement and addiction. Seamlessly fusing present-day scenes with cinematic re-enactments and archival footage, this intimate yet expansive documentary takes us on an inspiring journey to the space beyond, and to the spaces between us all. This film contains coarse language, substance abuse, and mature themes. View excerpts of this award-winning film and find out more ab

Stitching Science

September 30 - December 15, 2024 Cambridge Art Galleries' inaugural pop-up exhibition at Idea Exchange, Old Post Office, features the work of Guelph-based artist Lauren Wright Vartanian. Her latest work, *Stitching Science*, merges art and science in 27 intricate diagrammatic embroideries. A culmination of three years of work and countless stitches, these embroideries, each representing a letter of the alphabet, depict scientific concepts in a creative and accessible way. This exhibition coincides with Wright Vartanian's book release, *Stitching Science: Exploring Science from A to Z*, published by Firefly Books in the fall of 2024. Lauren Wright Vartanian is a multidisciplinary artist currently focusing on textile art. She has a Bachelor of Fine Arts in Drawing and Painting from OCAD University, where she graduated in 2006. She has been creating and selling art under the name Neurons and Nebulas since 2016. Her work blends art and science in a way that is fun and educational, but also beautiful.
